

DENTAL AND VISION INSURANCE FOR INDIVIDUALS AND FAMILIES

PLANS AND RATES EFFECTIVE FEBRUARY 1, 2021

Take control of your total health with the right dental and vision insurance.

The mouth and eyes are important parts of your body and your health. They can show early warning signs of disease — so regular dental and vision checkups help you stay healthy. That's why taking care of your total health requires not just medical insurance, but also dental and vision plans.

Almost
40% of Americans
age 18-64
DO NOT receive
regular oral care.¹

90%
of the body's
diseases show
signs & symptoms
in the mouth.²

People are
3 times
more likely to see
an eye doctor
versus a medical
doctor.³

Eye exams can be an
early detection tool for:

- Diabetes
- Glaucoma
- Hypertension
- Macular degeneration

It's important to take charge of your health. When you get your mouth and eyes checked every year, you're helping your whole body stay well.

When you're selecting a dental insurance plan, focus on choice, care, savings and convenience.
